

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN FRANCISCO DIVISION

LSI Corporation, Agere Systems LLC, and
Avago Technologies General (IP) Singapore
Pte. Ltd.

CASE NO. 15-CV-04307-EMC

Plaintiffs,

V.

Funai Electric Co., Ltd.; Funai Corporation, Inc.; P&F USA, Inc.; and Funai Service Corporation,

**[PROPOSED] AMENDED STIPULATION
AND ORDER RE: REPRESENTATIVE
ACCUSED PRODUCTS**

Defendants.

WHEREAS, Plaintiffs LSI Corporation, Agere Systems LLC, and Avago Technologies General (IP) Singapore Pte. Ltd. (collectively “Avago”) and Defendants Funai Electric Co., Ltd.; Funai Corporation, Inc.; P&F USA, Inc.; and Funai Service Corporation (collectively “Funai”) previously stipulated to representative accused products (*see* Dkt. No. 110 and the order entering the stipulation, Dkt. No. 113) and hereby stipulate to amend the representative accused products as contemplated by the parties’ prior stipulation.

The accused products shall be organized into product groups 1-9 for the accused WiFi Funai products and product groups 10-21 for the accused MPEG Funai products (“Product Groups”), as identified in the table below. Each Product Group includes one accused device that is representative of all of the accused devices within that particular Product Group. Each

1 representative product is identified in the “Representative Product Model Number” column in the
2 table. The parties agree that each representative product shall be representative of all accused
3 devices in the respective Product Group for all purposes in this case, including for infringement
4 purposes and for discovery purposes.

5 The parties agree that, if infringement of a patent claim is found for a Representative
6 Product Model in a certain Product Group, then all accused products in that specific Product
7 Group infringe that specific patent claim. Similarly, the parties agree that, if no infringement of a
8 patent claim is found for a Representative Product Model in a certain Product Group, then all
9 accused products in that specific Product Group do not infringe that specific patent claim.

10 The parties also agree that technical infringement discovery (written or otherwise) shall be
11 limited to the representative model numbers identified in the “Representative Product Model
12 Number” column in the below table, and the Plaintiffs shall not seek technical infringement
13 discovery on any other products, whether previously identified or identified in the future, subject
14 to the additional provisions set forth below. For example, the Patent L.R. 3-4(a) document
15 production shall only require production of documents for the representative model numbers
16 identified in the “Representative Product Model Number” column in the below table.

Modifications and additions may be made to the representative products and the Product Groups for good cause and if not unduly prejudicial up to 90 days before the fact discovery cut-off (or by stipulation at any point).

Notwithstanding the foregoing, Funai's document production pursuant to Patent L.R. 3-4(a) shall include documents sufficient to identify all relevant third-party components contained within each product listed herein.

1 Notwithstanding the foregoing, upon 30 days written notice Avago may request technical
2 documentation for one additional product in each category for the purpose of confirming that the
3 representative product model for that category properly represents each of the products in that
4 category. Further, Avago may seek additional technical documentation of additional products in
5 any category upon a showing of good cause that there is a substantial question as to whether the
6 representative product model properly represents each of the products in a particular category.

7 Funai represents that the products listed herein include (1) all WiFi enabled products
8 imported/sold by at least one accused Funai entity since March 2006 that incorporate non-
9 licensed WiFi chips and (2) all products imported or sold by at least one accused Funai entity in
10 the U.S. since October 1, 2015 that incorporate MPEG chips. Funai represents that “non-licensed
11 WiFi chips” means chips whose supplier does not have a license to the ’958 patent, ’867 patent,
12 and ’148 patent. The list does not include Funai products that incorporate WiFi chips supplied by
13 Realtek Semiconductor Corporation.

14 Avago admits and confirms that it is not accusing any Funai products containing WiFi
15 chips supplied by Realtek Semiconductor Corporation of infringement of the ’148 Patent, the
16 ’867 Patent and the ’958 Patent. Avago reserves the right to confirm that products not identified
17 in this stipulation contain WiFi chips supplied by Realtek Semiconductor Corporation through
18 appropriate discovery.

19 To the extent requested by Avago, pursuant to Fed. R. Civ. P. 30(b)(6), Funai shall make
20 available one or more witnesses competent to testify concerning the subject matter of this
21 stipulation, including without limitation non-privileged information regarding the manner in
22 which the Product Groups were determined, the basis for determining common functionality
23 within the Product Groups, and the basis for Funai’s conclusion that any WiFi chips are licensed.

24 Nothing in this stipulation precludes, limits, or otherwise prejudices any party’s ability to
25 take discovery from third parties.

26 Nothing in this stipulation precludes, limits, or otherwise prejudices any party’s ability to
27 take non-technical discovery related to all products identified herein.

28

1 Avago reserves the right to seek to vacate this Stipulation for good cause, which would
2 include a finding of multiple, material errors regarding the designation of Representative Product
3 Models after January 15, 2016.

4 This stipulation is limited solely to whether the accused product actually infringes or does
5 not infringe and is not an admission that any particular accused Funai entity made, used, sold,
6 offered for sale or imported for sale the product or that Avago is entitled to damages based on one
7 of the Funai entities making, using selling, offering for sale or importing for sale the product (e.g.,
8 a product could be found to infringe but Avago be barred from recovery based on one of the other
9 asserted defenses raised by Funai).

10 Funai reserves the right to make modifications and additions to the Representative Product
11 Models and the members of the Product Groups in good faith and if not unduly prejudicial up to
12 90 days before the fact discovery cut-off (or by stipulation at any point). Funai also reserves the
13 right to eliminate products in the event of changes in facts or circumstances, e.g., additional
14 licenses, elimination of products from infringement contentions, et cetera.
